Signal AI Leadership Summit

In partnership with

MBS Tortoise

Tuesday, July 21st
3.45pm - 6.30pm (BST)
10.45am - 1.30pm (ET)
7.45am - 10.30am (PT)

RSVP here

COVID-19 has laid bare the global interdependencies and vulnerabilities of a connected world. We've never been more disrupted or had such an overwhelming amount of information, and yet we have both information overload and information scarcity. What does leadership look like in this new normal?

How do decision makers strike a path through this information overload in our new COVID-19 reality? How does this impact reputation and purpose, environmental and social responsibility, supply chain management and disruption? What role does technology, and particularly tools like artificial intelligence have to play in this?

Join us as we talk to some of the world's top business leaders and thinkers about how they are making sense of the information overload, navigating through the current crisis and making decisions in the new normal.

Agenda

3.45pm (BST)
10.45am (ET)
7.45am (PT)

Welcome address

David Benigson,
CEO, Signal AI

4.00pm - 4.45pm (BST)
11.00am - 11:45am (ET)
8.00am - 8.45am (PT)

The Great Corporate re-set: ESG in the time of COVID-19

As global markets adjust to the new reality of the pandemic, the global demand for oil has dropped, and for the first time in history the price of oil has turned negative. Meanwhile S&P reported that investment funds with an environmental, social and governance (ESG) focus are outperforming the broader market during the pandemic. What are the opportunities and challenges for a great corporate reset, and how can business leaders make the best decisions at this time? What about supply chains? What role does technology, and particularly tools like artificial intelligence have to play in this?

Moderated by

Moira Benigson
Founder, The MBS Group

Speakers

Eric Collins
Chief Executive, Impact X Capital

Chuka Umunna
Signal AI Advisory Board Member and Head of ESG at Edelman

Sapna Sood
Group Director, International Clients and Markets Development, Compass and Non-Executive Director, M&S

4.45pm - 5.30pm (BST)
11.45am - 12.30pm (ET)
8.45am - 9.30am (PT)

The AI global race - who will lead in the next ten years

Artificial intelligence is poised to transform the way we work, learn and live. How should countries build for AI success? How do you develop a national ecosystem to be both the makers and the takers of AI? Who will be the winners and losers of the AI race, and why? And, how can AI support decision making in the public sector?

Moderated by

Alexandra Mousavizadeh
Economist and Partner at Tortoise Media and creator of The ResponsibilityIOO Index and The Global AI Index

Speakers

David Eaves
Lecturer of Public Policy Kennedy School

Jason Furman
Chief Economist to President Obama

Gila Sacks
Director, Digital and Tech Policy, Department for Culture, Media & Sport (currently Director of Testing Policy & Strategy, NHS Test & Trace)

Kay Firth Butterfield
Head of AI and Machine Learning and Member of the Executive Committee at World Economic Forum

5.30pm - 6.15pm (BST)
12.30pm - 1.15pm (ET)
9.30am - 10.15am (PT)

The AI Disruptors: The next 5 years?

Artificial intelligence is going to change the world more than anything in the history of mankind, even more, according to Kai-Fu Lee, than electricity. Across the globe, businesses, governments and the public at large are already having to adapt to the rapid development of AI-powered technologies. In this age of great global disruption and evolution, what role does artificial intelligence have to play? Which organisations are getting it right? What new and old problems can AI solve? Could, for instance, AI come to drive business decisions? Who are today's AI pioneers and how are they creating tomorrow's solutions? What does the next 5 years look like?

Moderated by

Simon Collins
Signal AI Advisory Board Member,
Chairman Decoded,
Non Executive Director Royal Air Force, former Chairman KPMG UK

Speakers

David Benigson
CEO, Signal AI

Jacomo Corbo,
Co-Founder, Quantum Black

Dr Vivienne Ming
Founder and Executive Chair, Socos Labs
